### Notice Regarding “Grandfathered Plan” Status

On March 23, 2010, President Obama signed into law the *Patient Protection and Affordable Care Act (PPACA)*, making health reform certain and expanding coverage to all Americans over the next several years.

A&B believes that the following health plans meet the criteria of the federal Affordable Care Act to be considered “grandfathered” plans:

- **CIGNA Low Option Open Access Plus Plan**
- **CIGNA High Option Open Access Plus Plan**
- **CIGNA Network HMO Plan**
- **Kaiser Permanente HMO Plan**

As permitted by the PPACA, a grandfathered health plan can preserve certain basic health coverage that was already in effect when that law was enacted. Being a grandfathered health plan means that the health plan may *not* include certain consumer protections of the PPACA that apply to other plans (for example, the requirement to provide preventive health coverage without any cost sharing). However, grandfathered health plans must comply with certain other consumer protections in the PPACA (such as the elimination of lifetime limits on benefits).

Questions regarding which protections apply and which protections do not apply to a grandfathered health plan, and what might cause a plan to change from grandfathered health plan status, can be directed to A&B’s Plan Administrator by calling 808-525-6611. You may also contact the Employee Benefits Security Administration, U.S. Department of Labor at 866-444-3272 or [www.dol.gov/ebsa/healthreform](http://www.dol.gov/ebsa/healthreform). This website has a table summarizing which protections do and do not apply to grandfathered health plans.

This bulletin is an employee publication of Alexander & Baldwin, Inc., produced by the A&B Benefits Department in conjunction with the Human Resources Departments of various A&B subsidiaries. It contains brief highlights only. A&B reserves the right to amend or terminate all or any part of its benefits program at any time. In case of any conflict between the information in this bulletin and the official plan documents, the official plan documents will govern.

### Medicaid and the Children's Health Insurance Program (CHIP) Offer Free or Low-Cost Health Coverage to Children and Families

If you are eligible for health coverage from your employer, but are unable to afford the premiums, some States have premium assistance programs that can help pay for coverage. These States use funds from their Medicaid or CHIP programs to help people who are eligible for employer-sponsored health coverage, but need assistance in paying their health premiums.

If you or your dependents are already enrolled in Medicaid or CHIP and you live in a State listed below, you can contact your State Medicaid or CHIP office to find out if premium assistance is available.

If you or your dependents are NOT currently enrolled in Medicaid or CHIP, and you think you or any of your dependents might be eligible for either of these programs, you can contact your State Medicaid or CHIP office or dial **1-877-KIDS NOW** or **[www.insurekidsnow.gov](http://www.insurekidsnow.gov)** to find out how to apply. If you qualify, you can ask the State if it has a program that might help you pay the premiums for an employer-sponsored plan.

Once it is determined that you or your dependents are eligible for premium assistance under Medicaid or CHIP, your employer's health plan is required to permit you and your dependents to enroll in the plan – as long as you and your dependents are eligible, but not already enrolled in the employer's plan. This is called a "special enrollment" opportunity, and **you must request coverage within 60 days of being determined eligible for premium assistance.**

**If you live in one of the following states**, you may be eligible for assistance paying your employer health plan premiums. You should contact your state for further information on eligibility. The following list of states is current as of January 1, 2011:
